Modelithics Adds Representation In Scandinavia

Tampa, Florida —August 24,, 2006

Modelithics, Inc. (www.modelithics.com) announced today that it will be represented in Scandinavia by MTT Components & Systems AB, a division of AGETO AB located in Täby, Sweden. According to Modelithics President & CEO Larry Dunleavy, "We have been getting an increasing number of requests from this region and welcome the assistance of Ageto MTT in assisting RF and microwave designers gain access to our unique simulation model library products and measurement and modeling services." Lars van der Klooster, Product Area Manager for Ageto MTT commented that "Many of our customers have expressed specific interest in Modelithics and are not completely satisfied with the model

availability and accuracy for the devices they want to use in their RF designs. Modelithics can offer these customers what they need. We believe that Modelithics products are a valuable addition to our EDA offerings and we look forward to working together to improve our customer's design success."

About Modelithics, Inc.

###

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Current products include the *CLR Library™*, which contains measurement-based *Global Models™* for a multitude of commercially-available passive components, the *NLD Library™* of non-linear diode models and the *NLT Library™* of non-Linear high power and low noise transistor models. Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs, including on-wafer device characterization and modeling as well as preparation of system component and IC models and related data sets.

Modelithics™, the Modelithics logo, Global Models™, CLR Library™, NLD Library™ and NLT Library™ are trademarks of Modelithics, Inc.

About Ageto MTT, AB.

Ageto – MTT (www.mttab.se) was formed in 1987/1989 and is a distributor specialized in printed circuit boards for advanced applications, EDA tools for High Frequency design, T & M instruments, communication equipment and components.
