Netwell to Represent Modelithics in Japan

Tampa, Florida —September 5, 2006

Modelithics, Inc. (www.modelithics.com) and Netwell Corporation are pleased to announce today that Netwell will be representing Modelithics unique model library products and measurement and modeling services in Japan.

Modelithics President & CEO Larry Dunleavy commented that “We have many important customers in Japan including suppliers that manufacture RF & Microwave devices as well as designers utilizing the latest EDA tools to develop next generation microwave and wireless products. We are confident Netwell will assist those customers in understanding how to best leverage Modelithics capabilities. “

According to Netwell's President Itaru Enomoto " We have been selling numbers of RF and Microwave components to suppliers who manufacture various governmental defensive EW equipment and industrial, mobile communication systems. We believe there is a market for Modelithics' products and service in EDA among our customers."

As part of the kickoff activities of this new relationship, Modelithics will be joining Netwell in Tokyo this year as an exhibitor for the December 12-15, Asia Pacific Microwave Conference.

###

About Modelithics, Inc.

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Current products include the *CLR Library™*, which contains measurement-based *Global Models™* for a multitude of commercially-available passive components, the *NLD Library™* (non-linear diode models) and the *NLT Library™* (non-Linear transistor models). Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs, including on-wafer device characterization and modeling as well as preparation of system component and IC models and related data sets.

Modelithics™, the Modelithics logo, Global Models™, CLR Library™, NLD Library™ and NLT Library™ are trademarks of Modelithics, Inc.
