

**Job Title: *Lab Manager*****Job Description:**

The successful applicant will possess either an engineering degree, a technician degree and/or substantial experience in RF testing, assembly and /or troubleshooting along with good leadership and organizational skills. The Lab Manager will perform independent work, supervise others and/or work as part of a team to utilize, build and/or adapt unique test equipment for complex tests using independent judgment, after suitable training on each task.

Duties include applying working knowledge of applicable test requirements and performing tests using general laboratory equipment and routine care of designated test equipment and work area, as well as operate a computer to extract/input readily available information and to use available software. The Lab Manager will be responsible for overseeing the following tasks:

examining test samples, reading measuring instruments and reviewing test data with applicable engineering staff; reading and interpreting schematics, wiring diagrams, and operational instructions, operating designated instruments that may include electrical test equipment, temperature measuring devices, microwave probes, impedance analyzers, noise analyzers, network analyzers and spectrum analyzers, multi-meters, hand tools, oscilloscopes and special laboratory equipment (e.g. noise parameter and load-pull test systems) as directed.

The person will be responsible for overseeing the assembly of electronic circuits and related test fixturing, in addition to customized test setups. The Lab Manager is responsible for general lab organization, identification and preparing purchase requisitions and budgetary requests for needed lab supplies, accessories and instrumentation, and for organization of residual materials from past/current projects.

Modelithics is located in beautiful Tampa Bay, FL and anticipates a competitive salary range that is negotiable, depending on experience and degree level, with benefits that include vacation, health, life, disability, and retirement plans.
