FOR IMMEDIATE RELEASE

December 1, 2021

Modelithics Welcomes IEH Corporation as Sponsoring MVP

Tampa, Florida (December 1, 2021) – Modelithics, the leading RF and Microwave simulation model provider, is pleased to welcome IEH Corporation, a leader in hyperboloid PCB connector products, into the [Modelithics Vendor Partner \(MVP\) Program](#) at the Sponsoring level.

In addition to becoming a Sponsoring MVP, IEH and Modelithics are collaborating to develop 3D models for the HGM, HMK, HMM, HRM, and HVM hyperboloid PCB connector series. 3D models are also in development for the HKC and HKX Hyperkinetic connectors, which are high-speed, high-density hyperboloid modular interconnects. Through the MVP Program, these models will be available for free extended 90-day trial use of all Modelithics models available for IEH components to approved customers.

The new 3D models for IEH connectors will be available in the [Modelithics COMPLETE+3D Library](#), which is currently available for Ansys® HFSS™. For more information or to request a free 90 day use of the new models for the IEH connectors once released, please visit www.modelithics.com/mvp/IEH. For more information about this new release and further details on the new models, please visit: <https://www.modelithics.com/model> or contact sales@modelithics.com.

About Modelithics, Inc.

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Modelithics' premium product is the Modelithics® COMPLETE Library, which includes the CLR Library™, containing measurement-based Microwave Global Models™ for a multitude of commercially-available passive component families, as well non-linear diode models, non-linear transistor models, and system level component models. Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs. Modelithics product offerings also include the mmWave & 5G Library and the Modelithics COMPLETE+3D Library. The mmWave & 5G Library includes a collection of models focused on supporting the next generation of cellular communication standards. All models in the mmWave & 5G Library are validated to a minimum of 30 GHz, with some validated up to 125 GHz! Modelithics COMPLETE+3D Library includes a collection of 3D Geometry models. Modelithics® is a registered trademark of Modelithics, Inc. Microwave Global Models™ and CLR Library™ are also trademarks of Modelithics, Inc. The Modelithics Vendor Partner (MVP) Program allows for collaboration and open communication during the development of advanced data sets and models for commercially available microwave components and devices, with flexible sponsorship and distribution arrangements for the resulting data and models. An example of such an arrangement is the Modelithics Qorvo GaN Library, a fully sponsored library distributed for free by Modelithics under sponsorship of Qorvo®. Modelithics also offers a Standard & Custom Test Fixture and Accessory Product Line, including legacy parts from J Micro Technology for a family of thin film Alumina substrate components.
