

NEW CLR Library for

HFSS!

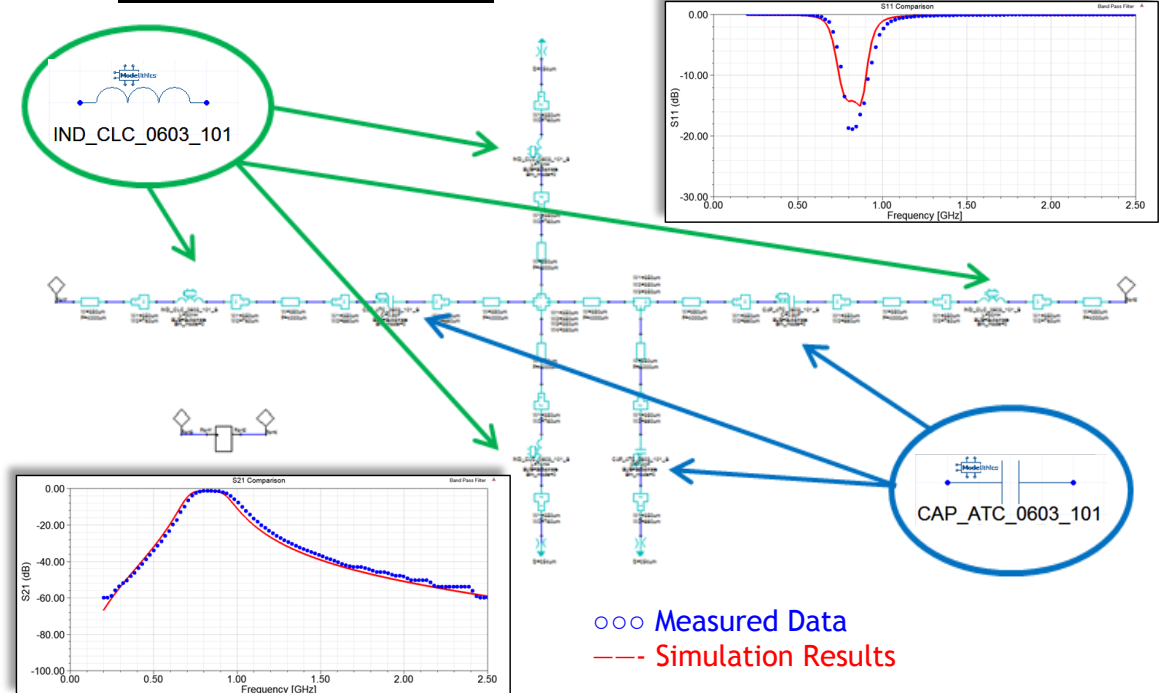

In step with latest design trends, Modelithics, Inc. is excited to announce that the Modelithics CLR Library of accurate high-frequency simulation models for RLC components now supports ANSYS Electronics Desktop (HFSS). Modelithics simulation models feature advanced parameter settings and scalability, giving RF and MW designers excellent measured-to-simulated agreement and design flexibility.

For the first time, the Modelithics CLR Library is now available within a full 3D EM simulator. Designers using ANSYS HFSS will now have the opportunity to use exceptional Modelithics models for seamless EM co-simulation and maximum design accuracy.

**FREE** Early Access to Modelithics CLR Library for ANSYS HFSS!

Request an early access trial of the Modelithics CLR Library for ANSYS HFSS today! Complete the [Request Form](#) and indicate "HFSS Early Access" in the comments field.
