FOR IMMEDIATE RELEASE

November 19, 2018

Modelithics® Announces Wavelength Electronics as New Sales Representative in England

Tampa, Florida and Oxford, England (November 19, 2018) – Modelithics, Inc. and Wavelength Electronics, Ltd. have recently signed a representation agreement for the support and sales of Modelithics' high frequency simulation model libraries and precision RF, microwave and mm-wave measurement services in the UK region. Wavelength Electronics Limited is a multi-line manufacturer's representative firm specializing in RF and passive components, offering their principal companies' products and services to support UK O.E.M's.

The addition of Wavelength as a new Modelithics sales representative offers multiple benefits. Modelithics customers or potential customers in the UK will now have a local contact for information regarding Modelithics' products and capabilities; And Wavelength Electronics will now be able to support their customers with RF and microwave simulation models and measurement services, complementing the high frequency component sales. Larry Dunleavy, President and CEO of Modelithics, stated, "We welcome this opportunity to offer local support for Modelithics in the UK, where many leading and highly reputable companies in the RF, microwave and mm-wave industry are located. Wavelength Electronics is a trusted high-tech representation company that is an excellent fit for supporting Modelithics sales and services." Paul Glover, Managing Director of Wavelength Electronics, stated, "Wavelength Electronics Ltd is pleased to have been awarded the UK representation and resale agreement for Modelithics, suppliers of the world's best RF and microwave simulation models. Our customers in the UK often ask for support with RF and simulation models for their component level design work, many of which are readily available in the Modelithics library."

The Modelithics COMPLETE Library of advanced, scalable RF and microwave simulation models, currently represents over 16,000 commercially available electronic components from over 65 popular vendors. The model libraries integrate seamlessly into most popular EDA software tools, with support for additional electronic design tools in development. For more information, visit the Modelithics website, www.Modelithics.com, or email sales@modelithics.com. Customers in the UK can contact Wavelength Electronics at sales@wavelengthelectronics.co.uk or through their website: www.wavelengthelectronics.co.uk

About Modelithics, Inc.

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Modelithics' premium product is the *Modelithics® COMPLETE Library*, which includes the *CLR Library™*, containing measurement-based *Microwave Global Models™* for a multitude of commercially-available passive component families, the *NLD Library™* (non-linear diode models) the *NLT Library™* (non-linear transistor models), and the *SLC Library™* (system level component models). Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs. Modelithics® is a registered trademark of Modelithics, Inc. Microwave Global Models™, CLR Library™, NLD Library™, NLT Library™, and the SLC Library™ are also trademarks of Modelithics, Inc. The Modelithics Vendor Partner Program allows for collaboration and open communication during the development of advanced data sets and models for commercially available microwave components and devices, with flexible sponsorship and distribution arrangements for the resulting data and models. An example of such an arrangement is the Modelithics Qorvo GaN Library, a fully sponsored library distributed for free by Modelithics under sponsorship of Qorvo®.

About Wavelength Electronics, Ltd.

Wavelength Electronics Limited is a multi-line Manufacturers Representative Firm presenting Electronic Components and sub-assemblies to UK O.E.M's and Distribution on behalf of Electronic Component Manufacturers. Established in 1992 with the mission statement "to bring cost effective representation to UK OEMs and Distribution on behalf of overseas electronic component manufacturers". Wavelength has been successful in giving our customers better access to the products, facilities, and capabilities of our principal manufacturers. Wavelength presents the products and capabilities of our principal manufacturers to four specialist groups in the electronics market place. High Reliability, Power Control and Conversion, RF and Microwave Interconnect, and Man Machine Interface and Sensors. Wavelength Electronics Ltd are members of the Electronics Representative Association.
