The Modelithics® Qorvo GaN Library v19.4.1 is now available. Version 19.4.1 of the GaN Library includes a total of 79 models containing 56 packaged power models and 17 GaN die power transistor products and 6 small-signal models. This release offers a new model for QPD1029L - 1500 W, GaN RF Power Transistor 65V (Frequency 1.2 - 1.4 GHz).

The Qorvo GaN Library is a set of non-linear models for Qorvo package and die GaN devices, designed for excellent accuracy, and validated with broadband S-parameters and load pull data at multiple frequencies. Each model has a detailed datasheet summarizing model features, development details, and model performance plots. Some devices are also represented with small-signal and noise models in addition to non-linear models.

The Modelithics Qorvo GaN library v19.4.1 is now available for download from the Modelithics website. The updated library installer can be found in the “[My Downloads](#)” section after logging on to the [Modelithics website](#).
