***Modelithics Releases CLR Library v 6.1 for  
Agilent's Genesys® Software***

---

Modelithics, Inc. ([www.modelithics.com](http://www.modelithics.com)) announces the release of their latest version of the Modelithics® CLR Library™ of reliably accurate and highly scalable models for Agilent's Genesys® software. This expanded collection of well-documented substrate and part-value scalable capacitor, resistor and inductor families from popular vendors like Johanson Technology, ATC, AVX, Murata, Coilcraft, Kemet, Panasonic, Samsung, TDK and Darfon broadens the design engineers' options for using simulation tools to increase design efficiency and decrease design costs. Recognizing their value, many of the new components models in this release have been developed through partnerships with the component vendors.

The upgrade will be forwarded, free of charge to all Modelithics CLR Library or Modelithics Library Complete customers currently under a Modelithics

Platinum Maintenance contract. For further information and to request a free trial of the Modelithics CLR Library, contact Modelithics at

[Sales@Modelithics.com](mailto:Sales@Modelithics.com) , or click on the free trial link you'll find at:

<http://www.modelithics.com>.

### **About Modelithics, Inc.**

Modelithics, Inc. ([www.Modelithics.com](http://www.Modelithics.com)) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Current products include the *CLR Library™*, which contains measurement-based *Global Models* for a multitude of commercially-available passive component families, the *NLD Library™* (non-linear diode models) and the *NLT Library™* (non-linear transistor models). Modelithics® services also address a wide range of custom RF and microwave measurement and modeling needs.

Modelithics® is a registered trademark of Modelithics, Inc. CLR Library™, NLD Library™, and NLT Library™ are also trademarks of Modelithics, Inc.
