Tampa, Florida — August 30, 2011

Modelithics, Inc. announces the addition of **John Fisher**, as member of the Modelithics management team.

Fisher has over 29 years of engineering and management experience, including extensive background in international product development as well as in executive management roles. His experience in process and product management along with previous roles as Director of

Engineering and VP of Sales and Marketing will be a valuable asset in Modelithics' goals to reduce turn-around time for custom modeling projects, to enhance the value of its software model library products to microwave designers, and to continue domestic and international growth. Fisher earned a BS in Electrical Engineering from the University of Central Florida along with a MS in Electrical Engineering and a MBA from the University of South Florida.

About Modelithics, Inc.

Modelithics, Inc. (Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Current products include the *CLR Library*[™], which contains measurement-based *Global Models* for a multitude of commercially-available passive component families, the *NLD Library*[™] (non-linear diode models), the *NLT Library*[™] (non-linear transistor models) and the *SLC Library*[™] (system level component models). Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs.

Modelithics[®] is a registered trademark of Modelithics, Inc. *CLR Library*[™], *NLD Library*[™], *SLC Library*[™] and *NLT Library*[™] are also trademarks of Modelithics, Inc..
