## *News Release*

### **Modelithics, Inc. Signs Medeos to Support Sales in Italy**

*Tampa, Florida —May 22, 2012*

---

Modelithics, Inc. has signed with Medeos SRL, for support of sales and services in Italy. Larry Dunleavy, Modelithics' President & CEO, and Giuseppe Fabiano, President of Medeos have signed a comprehensive representative and reseller agreement authorizing Medeos to sell all Modelithics products and services throughout Italy. For more information about these organizations, please see [www.modelithics.com](http://www.modelithics.com) and [www.medeos.it](http://www.medeos.it) .

#### About Medeos

Founded in 1997, Medeos is a selling organization, as an agent and distributor of high tech products. Medeos' mission is to promote sales of high value, mainly customized electronic devices, systems and RF & Microwave simulation software. Target markets are primarily the Defense and Aerospace Industries , Wireless Communications, R&D and Test Laboratories and Universities. Medeos is committed to achieve the maximum satisfaction of both its principals and customers ensuring clear

and fast communication, with technically accurate support of custom specific applications.

### [About Modelithics](#)

Modelithics Inc. is the leading provider of high accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Modelithics offers highly scalable and accurate model libraries for a growing number of components and ICs from various manufacturers, including passive components, non-linear diodes, transistors, and system-level components. Current products include the *CLR Library*<sup>™</sup>, which contains measurement-based *Global Models*<sup>™</sup> for a multitude of commercially-available passive components, the *NLD Library*<sup>™</sup> (non-linear diode models), the *SLC Library*<sup>™</sup> (*system level component models*) and the *NLT Library*<sup>™</sup> (non-linear transistor models). Modelithics' services also address a wide range of custom RF, microwave and millimeter-wave measurement and modeling needs. The mission of Modelithics, Inc. is to set the highest standard for accuracy and reliability in RF and microwave simulation models and measurement data and to have a significant positive impact on our customers' goals.
