Tampa, Florida —February 23, 2010
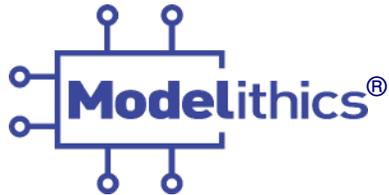

Modelithics, Inc. (www.modelithics.com) has released an enhanced version of their popular linear and non-linear device and system level component model library software. *The Modelithics COMPLETE Library* version 7.0 encompasses all passive and active models currently available from Modelithics for designers using Agilent Technologies' Advanced Design System EDA software. This upgrade also introduces 32 new Modelithics® *Global Models* for passive RLC's, and non-linear models for diodes, switches, amplifiers, and transistors - significantly increasing the number of well-documented, accurate and highly

Precision Measurements and Models You Trust

scalable measurement-based models available.   Charles Plott, Product Marketing & Planning Manager at Agilent EEsof commented: *"Agilent Technologies is pleased to see Modelithics continue to expand its library of linear and non-linear RF & Microwave models for the Advanced Design System. Agilent has enjoyed cooperating with Modelithics since their inception nine years ago and many of our customers have reported good success using ADS with Modelithics' models."*

Additionally, Modelithics announced their new pricing strategy. The price of the *Modelithics COMPLETE Library* will now be available at the same cost of the *CLR Library* alone. All customers with current Platinum Maintenance contracts for the *CLR Library* will receive upgrades to the *Modelithics COMPLETE Library*; hence, will receive licensing for the *NLD* (diode), *NLT* (transistor) and *SLC* (system level components) *Libraries* as well. This newest release loads all four libraries (*CLR, NLD, NLT* and *SLC*) with a single installer, providing increased efficiency and flexibility for our customers. *Modelithics Select™* shareware library is also included for customer convenience. Modelithics continues to deliver on their promise of providing *Precision Measurements and Models You Trust* to design engineers – enabling accelerated design cycles and lower product development costs.

About Modelithics, Inc.

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Current products include the *CLR Library™*, which contains measurement-based *Global Models* for a multitude of commercially-available passive component families, the *NLD Library™* (non-linear diode models), the *NLT Library™* (non-linear transistor models) and the *SLC Library ™* (system level component models). Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs.

Modelithics® is a registered trademark of Modelithics, Inc. CLR Library™, NLD Library™, SLC Library™ and NLT Library™ are also trademarks of Modelithics, Inc.
