NEW RELEASE

Modelithics Qorvo GaN Library v21.4.6

The **Modelithics Qorvo GaN Library version 21.4.6** for use with Keysight PathWave ADS and Cadence AWR Design Environment is now available. **Version 21.4.6** of the Qorvo GaN Library includes the addition of a Modelithics model for the **Qorvo QPD0005 GaN RF Transistor**. This release also includes compatibility with Keysight PathWave ADS 2022.

The Qorvo GaN Library is a set of non-linear models for Qorvo package and die GaN devices, designed for excellent accuracy, and validated with broadband S-parameters and load pull data at multiple frequencies. Each model has a detailed datasheet summarizing model features, development details, and model performance plots. Some devices are also represented with small-signal and noise models in addition to non-linear models.

The **Modelithics Qorvo GaN library v21.4.6** is now available for download from the Modelithics website. The updated library installer can be found in the "**My Downloads**" section after logging on to the [Modelithics website](#).
