FOR IMMEDIATE RELEASE

December 12, 2017

Modelithics Co-Founder Dr. Tom Weller Named IEEE Fellow

Tampa, Florida (December 12, 2017) – Modelithics is pleased to share the news and congratulate Dr. Thomas Weller, the company's co-founder, on being named IEEE Fellow by the Institute of Electrical and Electronics Engineers. This high designation is given by the IEEE Board of Directors to persons having a history of significant accomplishments in the fields of electrical engineering. Dr. Weller has been recognized for his extensive contributions in the area of advanced RF and microwave modeling techniques for surface mount and passive IC electronic components.

The research done by Dr. Weller and Dr. Larry Dunleavy, Modelithics co-founder and CEO, resulted in an advanced scalable microwave simulation model technology, termed Modelithics Microwave Global Models™ along with state-of-the art transistor and diode and behavioral modeling methods that became the basis for what is now the Modelithics COMPLETE Library™. Dr. Weller is currently a professor and chair of the Electrical Engineering Department at the University of South Florida, and is still involved with Modelithics as Chair of the Board of Directors.

For more information on IEEE and membership, visit the website at www.IEEE.org. For details about Modelithics and Microwave Global Models, please visit the company website, www.Modelithics.com. To request a trial of the models, visit the [trial request page](#) or email sales@modelithics.com.

About Modelithics, Inc.

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Modelithics' premium product is the *Modelithics® COMPLETE Library*, which includes the *CLR Library™*, containing measurement-based *Microwave Global Models™* for a multitude of commercially-available passive component families, the *NLD Library™* (non-linear diode models) the *NLT Library™* (non-linear transistor models), and the *SLC Library™* (system level component models). Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs. Modelithics® is a registered trademark of Modelithics, Inc. Microwave Global Models™, CLR Library™, NLD Library™, NLT Library™, and the SLC Library™ are also trademarks of Modelithics, Inc. The [Modelithics Vendor Partner Program](#) allows for collaboration and open communication during the development of advanced data sets and models for commercially available microwave components and devices, with flexible sponsorship and distribution arrangements for the resulting data and models. An example of such an arrangement is the [Modelithics Qorvo GaN Library](#), a fully sponsored library distributed for free by Modelithics under sponsorship of Qorvo®.
