FOR IMMEDIATE RELEASE

October 30, 2017

Modelithics[®] Vendor Partner (MVP) Würth Elektronik is now a Sponsoring MVP

Tampa, Florida (October 30, 2017) – **Modelithics Vendor Partner, Würth Elektronik, has recently upgraded to Sponsoring MVP level and now offers FREE extended trials of all Modelithics models for Würth Elektronik components.**

Würth Elektronik is now a valued Sponsoring Modelithics Vendor Partner, recently upgrading from the Strategic level. The two companies have collaborated in the past to develop models for multiple Würth inductor series and a ferrite bead model is also available. New models are in the works as well, for the WE-CAIR air coils and WE-KI HC inductors. The MVP program enhances the collaboration and communication during vendor device characterization and modeling, and expands the promotion of devices for which new data and/or models are available. As part of the Sponsoring MVP program, an extended 90-day trial of all Modelithics models for Würth components is available to designers by request. As new models are completed, they are added to the vendor MVP library as well.

The sponsored Würth Elektronik trial library is available for use with multiple popular electronic design and simulation tools supported by Modelithics, including Keysight ADS, Keysight Genesys, National Instruments AWR Design Environment, ANSYS[®] HFSS[™] and Sonnet[®] Suites[™]. Please visit the Würth Elektronik MVP landing page to view the detailed model datasheets of all available models, and to request more information: www.Modelithics.com/MVP/Wurth, or contact Modelithics at sales@modelithics.com.

About Modelithics, Inc.

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Modelithics' premium product is the *Modelithics® COMPLETE Library*, which includes the *CLR Library™*, containing measurement-based *Microwave Global Models™* for a multitude of commercially-available passive component families, the *NLD Library™* (non-linear diode models) the *NLT Library™* (non-linear transistor models), and the *SLC Library™* (system level component models). Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs. Modelithics® is a registered trademark of Modelithics, Inc. Microwave Global Models™, CLR Library™, NLD Library™, NLT Library™, and the SLC Library™ are also trademarks of Modelithics, Inc. The [Modelithics Vendor Partner Program](#) allows for collaboration and open communication during the development of advanced data sets and models for commercially available microwave components and devices, with flexible sponsorship and distribution arrangements for the resulting data and models. An example of such an arrangement is the Modelithics Qorvo GaN Library, a fully sponsored library distributed for free by Modelithics under sponsorship of Qorvo®.
