Modelithics®

World's Best RF & Microwave Simulation Models

New Products Blast

April 2022

Check Out the Newest Modelithics Products!

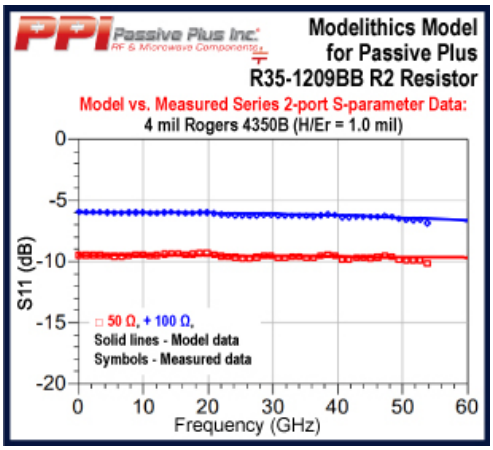

Now Available: A new **Modelithics 3D Brick Model™** for Würth Elektronik's **WCAP-CSRF 0402 (NP0)** series capacitor is now available. This model is validated to 50 GHz and covers a capacitance range of 0.3 to 9.0 pF.

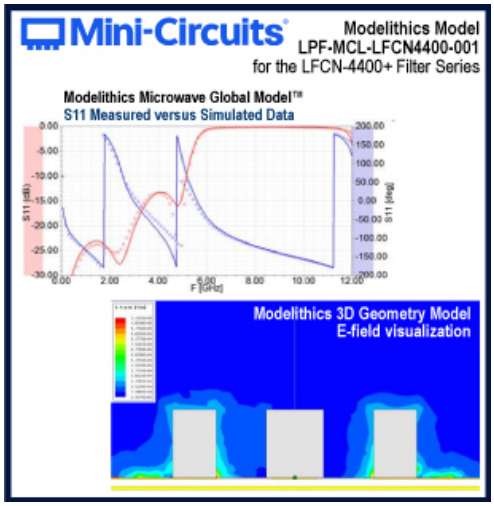

For more details on **Modelithics 3D Brick Models**, review **Application Note #78**.

Now Available: New Modelithics models are available now for the Passive Plus® **R35-1209BB** and **R35-2010BB** series. Both series are part value scalable, 50 to 100 Ohms, and each model is validated to **60 GHz**. Each model is also substrate scalable (0.9 ≤ H/Er ≤ 17 mil) as well as pad scalable.

FREE MODELS!

Modelithics continues to expand our partnership with **Mini-Circuits®** to offer best-in-class simulation models for customers evaluating our parts for their designs. Over **100** advanced models representing **150+** Mini-Circuits parts are available for free download for Keysight ADS as well as **32** 3D models for Ansys® HFSS™.

Now Available: **IND-CLC-0603-004** and **IND-CLC-0603-005** are new Modelithics models for Coilcraft's **0603CT** and **0603HL** series inductors. These models are validated to **50 GHz** and **40 GHz**, and are part value scalable 1 - 56 nH and 330 - 3300 nH, respectively. Both models are also substrate scalable (0.9 ≤ H/Er ≤ 17 mil) as well as pad scalable.

Test Fixtures and Accessories

Modelithics offers **Probe-Point™** adapter substrates formerly supplied by Jmicro Technology. These Alumina substrates adapt the benefits of coplanar waveguide RF wafer probe test methods testing microstrip formatted chips and circuits from DC through **70 GHz**!
