FOR IMMEDIATE RELEASE

November 20, 2023

Modelithics is Pleased to Introduce EDA Integrity Solutions as a Modelithics Reseller for Israel

Tampa, Florida (November 20, 2023) – Modelithics®, the industry leader in providing innovative and high-quality custom modeling and measurement services for RF, microwave and millimeter-wave electronic devices, is pleased to introduce EDA Integrity Solutions (EDAis), a leading Electronic Design Automation distributor and Solutions provider of tools, training, and services as a Modelithics reseller.

EDAis mission is to deliver first-time-success for today's high-end electronic hardware systems. To achieve this mission EDAis engages in partnerships with world leading companies like Cadence Design Systems for IC-Package-PCB design and Zuken`s E3 for their leading cabling solutions. EDAis serves over 700 companies from all sectors: military, semiconductors, communication, consumer, medical, education, automotive, and others.

As a Modelithics reseller, EDAis will be able to assist and support the requirements of design engineers in Israel by providing high-precision active and passive simulation models for radio frequency (RF) and microwave fields for Modelithics' flagship product, the Modelithics COMPLETE Library, which represents more than 27,000 components from over 70 component and IC vendors, supporting multiple EDA software platforms. Also available is the mmWave & 5G Library, System Components Library™ and the COMPLETE+3D Library. The COMPLETE+3D Library includes Modelithics extension collection of CLR component models, plus over 500 3D Geometry models.

In addition, EDAis will be representing Modelithics' broad array of highest quality, RF/microwave/mm-wave Characterization and Modeling services, including Modelithics' world-class GaN modeling and 3D Electromagnetic modeling capabilities.

The Modelithics library options as well as characterization and modeling services are available now from EDAis. Please contact EDAis at mailto:sales@eda.co.il or visit www.eda.co.il/ more information.

About Modelithics, Inc.

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Modelithics' premium product is the Modelithics® COMPLETE Library, which includes the CLR Library™, containing measurement-based Microwave Global Models™ for a multitude of commercially-available passive component families, as well non-linear diode models, non-linear transistor models, and system level component models. Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs. Modelithics product offerings also include the Modelithics mmWave & 5G Library, Modelithics System Components Library™ the Modelithics COMPLETE+3D Library. Modelithics® is a registered trademark of Modelithics, Inc. Microwave Global Models™, System Components Library™ and CLR Library™ are also trademarks of Modelithics, Inc. The Modelithics Vendor Partner (MVP) Program allows for collaboration and open communication during the development of advanced data sets and models for commercially available microwave components and devices, with flexible sponsorship and distribution arrangements for the resulting data and models. An example of such an arrangement is the Modelithics Qorvo GaN Library, a fully sponsored library distributed for free by Modelithics under sponsorship of Qorvo®. Modelithics also offers a Standard & Custom Test Fixture and Accessory Product Line, including legacy parts from J Micro Technology for a family of thin film Alumina substrate components.
