FOR IMMEDIATE RELEASE

February 14, 2024

Modelithics Welcomes Dalicap as Sponsoring MVP

Tampa, Florida (February 14, 2024) – Modelithics®, the leading provider of RF/microwave simulation models, is pleased to welcome Dalicap, into the Modelithics Vendor Partner (MVP) program at the Sponsoring level. Dalicap Technology Co., Ltd. has become one of the global leading suppliers in the industry of RF/microwave capacitors.

Dalicap specializes in RF/microwave MLCC, single-layer ceramic capacitors, thin film circuits, etc. With the advantages of excellent performance of products, quick delivery, and prompt service, Dalicap products are widely used in semiconductor equipment, MRI, telecommunication infrastructure, broadcasting, and testing instruments industries.

In collaboration with Dalicap, Modelithics has developed new substrate- and part-vale-scalable Microwave Global Models™ for Dalicap 0603-size DLC75P, 0805-size DLC75D, 0505-size DLC70A, and 1111-size DLC70B MLCC capacitors. The Modelithics non-linear models are available within the Modelithics COMPLETE Library, which is an indispensable collection of simulation models for all types of passive and active RF and microwave devices engineered to enable designers to go from concept to product faster and easier. The Modelithics COMPLETE Library is available for Keysight Technologies' PathWave Advanced Design System (ADS), Keysight Technologies' PathWave RF Synthesis (Genesys), Cadence® AWR Design Environment®, and other simulators. For a free trial, please visit www.modelithics.com.

Through the Modelithics Vendor Partner (MVP) program, FREE 90-day use of Modelithics models for Dalicap components will be available. For more information or to request free use of the Modelithics models for the Dalicap MLCC capacitors, please visit http://www.modelithics.com/MVP/Dalicap.

About Modelithics, Inc.

Modelithics, Inc. (www.Modelithics.com) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Modelithics' premium product is the Modelithics® COMPLETE Library, which includes the CLR Library™, containing measurement-based Microwave Global Models™ for a multitude of commercially available passive component families, as well as non-linear diode models, non-linear transistor models, and system-level component models. Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs. Modelithics product offerings also include the Modelithics mmWave & 5G Library, Modelithics System Components Library™ the Modelithics COMPLETE+3D Library. Modelithics® is a registered trademark of Modelithics, Inc. Microwave Global Models™, System Components Library™, and CLR Library™ are also trademarks of Modelithics, Inc. The Modelithics Vendor Partner (MVP) Program allows for collaboration and open communication during the development of advanced data sets and models for commercially available microwave components and devices, with flexible sponsorship and distribution arrangements for the resulting data and models. An example of such an arrangement is the Modelithics Qorvo GaN Library, a fully sponsored library distributed for free by Modelithics under the sponsorship of Qorvo®. Modelithics also offers a Standard and Custom Test Fixture and Accessory Product Line, including legacy parts from J Micro Technology for a family of thin film Alumina substrate components.
